PROJECTS

CEC-CONNECT

This application has been developed for the students of college to form a social network among themselves. Students and teachers are able to search the profiles of other students and staff of college. Students' profiles are searched based on their skills and staff profiles are searched based on their department.

Also students can use sgpa calculator to calculate their sgpa with their grades obtained in each semester. Students can get details of teachers through a staff directory bot by entering the name of the staff.. Teachers are able to send notifications either as text or as images to students.
